# *Choo-Choo City Rails Prototype Industrial Tours*

No convention in Chattanooga would be complete without a visit to the **Tennessee Valley Railroad Museum.**

Plans are being finalized for a group visit that would include the static displays, a train ride through historic Missionary Ridge and a behind the scenes “**back shop tour.**”

Discussions are ongoing with several of Chattanooga’s major industries, many that are rail served. Prospective tours include VW auto loading terminal, ADM’s trans-load facility, **Signal Mountain Cement, Astec Industries** and **Komatsu**, to name a few.

Additional details and registration for these extra fare activities will be added to the website in early 2019.

Early registrants will have priority in obtaining tour tickets.
